DEV AGARWAL

Full Stack Developer

+91 9808310897 • dagarwal499@gmail.com • www.linkedin.com/in/dev-agarwal-5a0696170 • Gurgaon, India

Summary

Full Stack Developer with **4+ years** of experience building enterprise SaaS applications using **React.js, Node.js, Express.js, MySQL and REST APIs**. Specialized in multi-tenant architecture, white-label platforms, audit trail systems, performance optimization, and third-party integrations across Logistics and FinTech domains. Experienced in designing scalable **frontend architectures** and **optimizing backend performance** while delivering **secure**, **high-quality software.** Delivered measurable improvements including reducing page load time from **5+ seconds** to under **1 second**.

Skills

Frontend Technologies: JavaScript · React.js · HTML5 · CSS3 · Responsive Design · TypeScript

UI Development & Architecture: Reusable Component Architecture · State Management (Redux) · Performance Optimization

Backend Technologies: Node.js · Express.js · Third-Party API Integration · Python · JWT/OAuth

Databases: MongoDB · MySQL · PostgreSQL · MSSQL - Schema Design · Query Optimization · Indexing

Tools & Version Control: Git · GitLab · GitHub · SonarQube · AWS (S3, Lambda, EC2) · CI/CD

Caching & Async: Redis · Message Queues · Async Processing

Development Practices: Agile/Scrum · System Design · Code Review · Mentorship · Bug Fixing & Maintenance

Professional Experience

AAPNA Infotheek Pvt. Ltd.

New Delhi, India

Full Stack Developer (Consultant)

12/2021 - Present

- Designed a configuration-driven **multi-tenant** architecture using feature flags and tenant-specific permissions, enabling scalable onboarding of enterprise clients.
- Improved application performance by **45%** through **lazy loading, code splitting, debouncing, bundle optimization, and React rendering optimizations.**
- Revamped UI/UX with responsive design, accessibility, and navigation enhancements, contributing to a **12%** increase in website traffic.
- Enhanced code quality by resolving **SonarQube** issues, eliminating **duplicate code**, and mitigating **security hotspots**.
- **Optimized** backend performance through database **query tuning, strategic indexing, and API enhancements**, reducing response times by **30%**.
- Delivered **production-ready** features by collaborating with **product, design, and QA teams** in **Agile** development cycles.

Key Enterprise Projects

The Closing Exchange (FinTech)

- **Integrated multiple third-party systems** and **services**, including **Stripe, Nylas, and Google APIs**, ensuring seamless system interoperability.
- Resolved **200+** complex client requests and technical issues, demonstrating a strong commitment to platform stability.
- Managed GitLab **CI/CD pipelines** and deployed applications to **Docker-based AWS** lower environments, ensuring reliable releases.
- Implemented **fail-safes** and **AutoProgress** tracking to ensure **accuracy** and **eliminate duplicate executions**.
- Designed scalable **Auto Assignment** system using **Node.js, MySQL, AWS Lambda, and Redis.**

Deliver Me (Logistics Platform)

- Successfully **onboarded** two major enterprise clients by **architecting** and **implementing** a scalable **white-label** solution.
- Optimized **pricing module** performance, reducing **load times** from **8 seconds** to **2 seconds** and significantly enhancing the **user experience**.
- Implemented business-critical modules including **UPS address validation** and **Freight Pricing Calculator**.
- Collaborated with **business analysts** and **stakeholders** to **redesign** the entire booking page, delivering a more **intuitive, high-performance UI** that significantly improved **user efficiency**.
- Built an **Audit Trail** framework to capture booking lifecycle events and user a**ctivities, improving traceability and operational visibility.**
- Increased development speed by up to **30%** through effective adoption of **GitHub Copilot**.

Education

SRMS College of Engineering Technology & Research, AKTU

Bareilly

Bachelor in Computer Engineering

2016 - 2021
